EFT ARCUS:

CLOUD-BASED SAAS MANAGED FILE TRANSFER

KEY RESULTS

Reduce IT operational costs usually associated with on-site hardware, software maintenance, and support.

Flexible consumption-based pricing combined with a low flat monthly fee allows you to match your costs to actual usage.

Enables you to comply with the most stringent data security and compliance requirements.

Organizations are looking for strategies that will allow them to react more quickly to changes in their industry and cut costs to become more efficient and profitable. The cloud has become synonymous with agility, empowering organizations to operate and respond to growing business demands faster and more efficiently.

EFT Arcus is a SaaS managed file transfer solution for organizations who are looking for agility, elasticity and cost-savings the cloud can provide. EFT Arcus can reduce the complexity of your file transfer infrastructure, increase operational efficiency, and protect your most important data.

With EFT Arcus you can:

- Automate data exchanges between people and systems
- Gain visibility into the movement of data
- Replace legacy or homegrown file sharing systems
- Securely share files internally or externally
- Facilitate compliance with regulations like SOX, FIPS, HIPAA, and PCI DSS among others.

USE ONLY THE RESOURCES YOU NEED, WHEN YOU NEED THEM

Reduce IT operational costs usually associated with on-site hardware, software maintenance, and support. Flexible consumption-based pricing with a low, flat monthly fee allows you to match your costs to actual usage so you don't spend more than necessary. Full elasticity and scalability allows your instance to scale up to meet peak demand and back down again when traffic subsides.

BUILT FOR SECURITY AND COMPLIANCE

EFT Arcus is available through a single-tenant model in the Azure cloud and offers stability and protection for your highly sensitive data. The Azure facilities offer a high level of security and comprehensive compliance certifications including ISO 9001, ISO 27001, ISO 27017, ISO 27018, PCI DSS Level 1, SOC 1, SOC 2, SOC 3, EU-US Privacy Shield, CSA Star, HIPAA, FedRAMP, and FIPS.

FLEXIBILITY, AGILITY AND WORLDWIDE ACCESSIBILITY

EFT Arcus provides worldwide regional coverage, with the ability to deploy a customer into any of the 36 regions within Azure.Customers can begin using EFT Arcus within a matter of minutes and not days. Geo-redundant storage keeps your data intact and business running in case of natural disaster or outages in specific regions.

GLOBALSCAPE

ABOUT GLOBALSCAPE

Globalscape is a pioneer in securing and automating the movement and integration of data seamlessly in, around and outside your business, between applications, people and places, in and out of the cloud. Founded in 1996, Globalscape's data exchange and integration software and services are trusted by over 13,000 customers in over 150 countries worldwide, including global enterprises, governments, and small and medium enterprises. Headquartered in San Antonio, TX, Globalscape enables companies to increase business agility by unleashing the power of data. Whether you are a line-of-business stakeholder struggling to connect multiple cloud applications or an IT professional tasked with integrating partner data into homegrown or legacy systems, Globalscape provides cloud services that automate your work, secure your data and integrate your applications – while giving visibility to those who need it. Globalscape makes business flow brilliantly. Globalscape has consistently been named a top workplace by Computerworld, the San Antonio Business Journal, Texas Monthly, and the San Antonio Express-News, among others.
